

Child Support Calculation Information

Multiple Family Adjusted Guidelines								
(% of Net Resources)								
Number of children before the court								
		1	2	3	4	5	6	7
Number of other children the parent has a duty to support	0	20.00	25.00	30.00	35.00	40.00	40.00	40.00
	1	17.50	22.50	27.38	32.20	37.33	37.71	38.00
	2	16.00	20.63	25.20	30.33	35.43	36.00	36.44
	3	14.75	19.00	24.00	29.00	34.00	34.67	35.20
	4	13.60	18.33	23.14	28.00	32.89	33.60	34.18
	5	13.33	17.86	22.50	27.22	32.00	32.73	33.33
	6	13.14	17.50	22.00	26.60	31.27	32.00	32.62
	7	13.00	17.22	21.60	26.09	30.67	31.38	32.00

Gross Monthly Income

- Federal (and State) Tax Withholdings for a single person with no dependents
- Actual cost of health & dental insurance for children only
- Union dues
- = Net income available for support

Net Income Available for Support x Percentage of Support = Monthly Child Support

For example:

\$5,000.00 (gross monthly income) - \$879.83 (taxes) - \$150.00 (health insurance for children) – \$25.00 (dental insurance for children) - \$100.00 (union dues) = \$3,845.17

\$3,845.17 x .25 = \$961.29 in child support.

If the non-custodial parent is not providing the health insurance, they are required to reimburse the custodial parent for the cost of the health insurance in addition to the monthly child support obligation.
